Outstanding Opportunity - Nelson

Business for Sale Description

Construction Business for Sale Nelson

Highly successful home renovation business established over 15 years ago. This success can be attributed to our Vendors offering renowned high-quality workmanship and ensuring that an excellent team and systems are in place to ensure the success continues. This high performing team and their embedded systems mean that the business operates successfully (with year-on-year growth) without requiring regular direct day-to-day input from the owners.

The business has grown strongly through word-of-mouth, and through the delighted testimonials of Customers providing repeat referrals. The business has an excellent website to showcase it to the public which provides the core sales channel. The post-Covid world where people are keen to spend money on improving their homes makes this business ideally situated to continue to boom.

Here is a successful established business, with good systems in place which must appeal to a trade-qualified carpenter seeking their own business, or an astute investor who sees the opportunity presented here, bearing in mind that the business will require a licensed building practitioner when the Vendor relinquishes the business. Take this opportunity and make it yours - enquire now!
