Refresh Renovations provides customers with high-quality renovations that transform their home!

Refresh's design and build process reduces risk of time and budget blow-outs

Refresh is a complete design and build service and has a proven process for taking consumers from concept to completion. This structured process provides franchisees with a framework for working with customers to ensure they deliver a renovation that is on-time and on-budget, and delivers on the customer's desired outcomes.

Budgets, costings and designs are developed and refined as the project progresses through the process, so that there are no surprises during the construction phase, and customers receive exactly what they were expecting.
