Automotive Sector - Dominant Business For Sale

Business for Sale Description

Automotive Niche Services Business for Sale
Napier

- Specialist automotive servicing and products
- A niche market that is booming
- Unprecedented demand '5 new customers per day'
- Experienced and passionate staff
- Scalable with lots of options around expansion
- Long term lease to 2031
- Opportunity to franchise this business model
- A really neat business

This is an impressive business and has everything going for it. Immaculately presented and professionally branded from staff uniforms to company vehicles. Customers travel from as far away as Wellington and Gisborne to receive the first class service provided by the companies trained and enthusiastic staff.

From a new owners perspective the business can operate without you being present day to day as the current owner is big on training, delegating and empowering the staff. Currently the business operates Monday to Friday but there is demand to extend trading hours due to considerable forward bookings. There has been significant investment in new plant and equipment so the business is well positioned to take advantage of the massive growth and opportunities that this automotive sector is experiencing.
