#### Why purchase a Property Management business?

Resilient & recession proof business. We only need to look at how the Global pandemic has had a devastating effect on some businesses throughout NZ; however the property management industry has fared well.

The property management industry is being regulated. We believe this is having a positive effect on the industry overall providing opportunity for business growth as a lot of 'standalone' operators who aren't supported by a strong national brand will choose to move out of the industry, rather than become licensed.

Steady income - a property management business has reoccurring income meaning it is consistent and comes in every month.
