Join the booming property industry with a Hire A Hubby Enterprise Business.

There has never been a better time to invest in a Hire A Hubby franchise opportunity. The home maintenance market is experiencing strong growth, driven by increased spending on housing renovation and improvement, high demand in the rental sector, and homeowners protecting their most valuable asset.

As an Enterprise operator, you will run multiple territories, employ a growing team, manage multiple vehicles, and pursue high-value commercial contracts that most single operators never access.

This is not a trade franchise. It is a scalable business platform for leaders focused on building teams, systems, turnover, and long-term asset value.

Priced from $125,000, with further investment into vehicles, people, and equipment as you grow.

1. Unrestricted access to high-value areas and commercial hubs
2. Project manage multiple large contracts simultaneously
3. Build and lead a multi-staff operation across multiple territories
4. Turnover potential from $495,000 to $2,000,000+
5. Own a high-value business asset, not just a lifestyle income
6. Backed by a national administrative system so you can focus on growth

You may be a business owner, entrepreneur, experienced leader, or partnership ready to step into a fully operational enterprise and take it further. You understand how to lead a team, manage commercial relationships, and build on an established platform.
