

Manufacturing Business for Sale Auckland

Importers in Niche Industrial Engineering Market

This iconic, multi-million-dollar engineering and manufacturing business with origins dating back in excess of seventy (70 +) years, having built its highly respected reputation in its particular specialist niche within the engineering industry, can point to its success in the form of its highly recognisable, repeat, financially successful and satisfied Blue Chip customer base.

Building that reputation and that degree of industry expertise hasn't simply been limited to providing that high level of specialist services to its New Zealand customer based, but encompasses a very high level of customer satisfaction related both to being able to provide urgent, immediate response to customer needs as well as providing ongoing and regular maintenance checks and services as well as, where necessary, special customer training services to assist its clients minimise internal risks, but has also extended to customers in countries such as Australia and within the Pacific as well.

Having strategically positioned itself within its market niche it has few competitors as such and not only experienced strong growth both in terms of growth in sales revenue as well as growth in overall profitability for the year ended 31st March 2022, but expectations are that this year's growth will further exceed last year's financial results. All in an ever-evolving industry. First time on market!
