Type: **Manufacturing**

Market leader with national and export sales. EBPIDT approximately \$1.2 million

This well regarded business has been trading business to business, designing, manufacturing and fabricating for over 30 years. A world leader in it's segment, this business has efficient proven systems, a large suite of drawings and designs, with a large range of bespoke components - creating a strong barrier to entry, with a quality range of products.

The business predominantly sells to repeat customers in it's core market segment. The business has a culture of innovation, utilising the broad range of trade skills to manufacture some other products.

The owner of the business of many years is pursuing another interest and is committed to ensuring the success of the business and will offer appropriate ongoing assistance to the purchaser. The trade skills required in the business are broadly spread amongst the employees on the shop floor and in job management. A purchaser will be suited to a marketing and general governance role.

This is a rare opportunity to purchase a manufacturer/fabricator with a strong dominant market niche that also provides the foundation for further growth.
