

Mobile Hydraulics Business Opportunity for Sale Bay of Plenty but Anywhere

Mobile Hydraulics Business Opportunity for Sale "Bay of Plenty" but can be taken and run anywhere in New Zealand.

Mobile Hydraulics Business Opportunity for Sale "Bay of Plenty" but can be taken and run anywhere in NEW ZEALAND.

"Be your own BOSS", with the exciting opportunity to own your own Hydraulic Business. Fully equipped to walk in and start tomorrow.

This business can be based anywhere in New Zealand as it is fully self contained and mobile. All you would need is a vehicle to hook trailer onto and tow away. Would also be a great financial addition to an existing business such as mechanics shop, earth works contractors, contractors, forestry crews, larger farming industry operations or anyone else needing hydraulics maintenance and hoses.

It is set up and ready for operation including the trailer (full solar powered and battery) generator, crimper, cutter and press set up and 60K worth of Alfa Gomma (Italian) hydraulic stock parts and hose.

Suitable for one worker but also has the option to keep two or three staff working solo as there is also two separate sets of crimpers/cutter and wod guns/24 volt power packs, die sets, inverters etc.

Items are able to be sold separately on discussion but a package sale would be preferred and more viable.

A 2" french press for 8K is also up for sale separately along with a service box body trailer for that second worker?
