

Pontoon Production & Installation Business for Sale Auckland

Love the Water? Love Construction?

Pontoon Production and Installation.

The retiring owner says sell!

This is a rare opportunity to acquire this pontoon production and installation company operating all around New Zealand.

The tried and tested system has been in operation since 1998 and over that period has developed strong relationships with councils around the country. They have been involved in many council and private pontoon installations. The pontoons are all created by local engineering businesses using the molds that have been developed and are owned by this company over the years to suit every need from private to commercial use.

This business owns 11 molds that have been carefully developed to make an array of pontoon structures suiting many different needs. The installation is carried out by a 2-man team of contracted labourers but currently, all the civil work is contracted out which is an opportunity to increase profits.

This business will suit someone with a design and engineering mind who has knowledge of the water and enjoys construction. Giving great returns to the current owner he is keen to assist the right person into the business.

With a list of work in the pipeline, this is a solid business with massive future growth potential.
