

Landscape Gardening Business for Sale Hamilton

Work your own hours in a well-established business installing and maintaining gardens. Great repeat business, and a very satisfying job creating gardens people love! Great growth opportunities.

Currently working approx. 24-30 hours per week and there is room to employ a helper if you take on more work.

Word of mouth, repeat clients and Builderscrack have kept me busy enough to not need to advertise.

Busy and flexible business.

Currently 24 30 hours a week.

Well established client base.

Good profits and satisfaction.

Lots of room for further growth.

Hand over help.

Attention to detail has always been important to me while working in clients' gardens and has ensured I get invited back for future work.

I am looking for the right purchaser to take the reins and continue on with maintaining a high standard of work and great customer service.

You will need to be physically capable, have a good knowledge of plants and maintenance techniques, and a friendly nature is essential.

Business Resources

Included in the sale is a client and supplier list, email address, phone no., full set of tools including caged trailer, Stihl Lithium Ion tools, ratchet loppers, and lots more. (List supplied at next stage). A vehicle is also available (extra if required).

A reasonable transition/handover is included in the purchase price.
