

Bicycle Retail Business for Sale Hamilton

Love Bikes? Want to own a well established Bike business where you can enjoy the growth and popularity of the bicycle Industry?

The bicycle Industry is continually experiencing growth and popularity led by many drivers including climate change, transport and commuting, health and wellbeing, family time and the ever-growing infrastructure around cycleways and cycle trails.

With the cooling effect post covid from the cycling boom, now is the time to get in at the lower point of the cycle.

As part of Australasian Myride group of independent owners, being within the group enjoys certain exclusive benefits.

Located at The Base shopping centre, the landlord Kiwi Property is one of New Zealands biggest landlords with a strong retail focus and commitment who actually care about the wellbeing of their tenants as they have a vested interest in their success, especially independent owners.

If you have good capital, or money invested in the bank, the returns will outperform interest earned in a sedentary investment.

If this sounds like you, or you want to know more about how this could work for you, feel free to call or email the owner for a no obligation confidential chat.

It could be easier than you think!
