

Manufacturing Business for Sale Te Anau

Financially Successful, Light Engineering Business.

Looking for financial success, what better opportunity could there be to start off 2024 by acquiring an already 30-year-old existing, financially successful light engineering business coming onto the market as a result of the existing owners retirement?

Understanding the potential for growth and expansion of this business starts with an understanding of this five (5) day a week business with sales revenue in excess of \$1 million per annum; its reliable staff; its real growth potential; all of which provide an opportunity for a new owner, with the requisite skills and passion coupled with their own vision, to take this business to a whole new level of financial success. The asking price of \$550,000 for this business includes an estimated \$125,000 of stock. Despite the impact of the likes of Covid 19 over the last 4 years, the companys average profit (E.B.P.I.T.D.) exceeded \$200,000 per annum. Because of the level of customer demand, generated from a history of customer satisfaction and referrals, there is no shortage of work nor a need for advertising and marketing.

When put in the context of being a highly successful light engineering business with so much growth potential, situated in highly scenic, tourist area which in itself could provide a new owners family with a superior quality of lifestyle, taking that lifestyle work balance beyond imagination.
