

Established roofing specialists in Auckland

The business is a leading player in the shingle roofing niche, with a quality client base and referral network. This represents a significant opportunity to capitalise on the momentum that the current team have built. With a GM in place this business is fully managed on a day-to-day basis and the business has been very resilient through the economic cycle given the high-to-high end market that the business serves.

Highlights of this opportunity are summarised as follows:

- Plenty of opportunities to grow the business particularly geographically with the current operations being limited to the Auckland market.
- The business has delivered a sustained period of success with a promising outlook as evidenced by pipeline of confirmed work and quote levels.
- Staff are very experienced and well respected within the industry, with the business requiring minimal input and oversight from the current vendor.
- The business achieved EBITDA of circa \$650,000 in FY24 and expected to perform better in the current FY25 year.
- Price on application
