Type: **Services-Other**

Secure your future with a fantastic locksmithing business! A well established, well set-up and profitable business. Training provided.

If you're looking to secure your future with a fantastic business, our locksmithing business is for you. Enjoy working in a work smarter not harder environment. This is an ideal opportunity if you are in an allied trade and are looking for a change. If you have practical aptitude and sound problem solving skills then locksmithing is easy to learn on the job just like any other trade.

We have been established in a rural town for more than 17 years and have a comprehensive and strong customer base throughout Hamilton and the greater Waikato. There is significant growth in the greater Waikato and now is the time to capitalize on this. We are a strong recognised brand and this business offers exceptional financial returns for the hours worked.

There is a national shortage of locksmiths and here in the Waikato many are of retirement age. This provides you with huge growth potential across the residential, commercial, automotive and electronic locksmithing disciplines.

We offer:

- Comprehensive handover and training if required a fully equipped mobile van
- Stock
- Client base including restricted systems

This is your opportunity to build on our solid reputation and grow your own business.
