

Barber Business for Sale Auckland CBD

The Shortland Barber is a boutique barber shop located on Shortland Street in Aucklands CBD.

The Shortland Barber is a boutique barber shop located on Shortland Street in Aucklands CBD. It has traded from the same location for some 40 years.

Shortland Street will always be a busy hub for Auckland City with several office blocks close by, however the inner-city restructuring has led to an increase in hotels and permanent residents as well as student numbers. This has all been to the benefit of the Shortland Barber, so it attracts the steady repeat clientele of professionals plus the travelling businessmen and people on holiday. The future remains strong for this excellent business.

Business Resources

Currently the business is operated by a single working owner but there is enough business to easily operate the second chair either on a full time or part time basis. The current owner would be willing to consider working 2-3 days part time if required.

There is a solid lease in place through to 31 May 2027 with a further right of renewal through to 31 May 2030.
