Accounting Business for Sale Auckland (home based)

This accounting business is operated from a home office with a solid client base. Provides bookkeeping services (great for regular cashflow) as well as annual compliance services (not audit).

This could be either a great entry level opportunity for a CA looking to establish their own practice, or alternatively, as an add on to an existing practice looking for growth through acquisition. The vendor is selling these fees due to increased family commitments.

Business Resources

Sole practitioner, mainly uses Xero, handover provided.
