AUCKLAND HOME-BASED CHILDCARE
Central Auckland & West Auckland

Auckland Home-Based Childcare. Managed Profits of \$550,000+

Are you passionate about early childhood education and seeking a rewarding business venture?

Home-based childcare differs from normal childcare centres, in that the educators care for the children in their own homes, on ratios of 1:4, rather than in a typical childcare centre.

The benefits of a home-based centre vs traditional childcare centres are the low overheads (and no lease), along with easier license expansion, and being able to do double shifts due to the 7am-12am operating hours.

Business Highlights

- FY25 fully managed profits of \$550,000+ (projected)
- Open daily from 7am to midnight, accommodating various family schedules
- Licensed for 100 children, and super easy to increase compared to normal childcare centres
- Low overheads (no expensive leases to worry about)
- Access to 20 hours of free early childhood education, and up to 50 hours of WINZ subsidies, making quality childcare affordable for families

Why Invest? This is a unique opportunity to own a reputable home-based childcare service, with a strong community presence and a proven track record.

With established systems, dedicated educators, and a loyal clientele, this home based childcare is poised for continued success and growth in the early childhood education sector.
