

Bespoke Kitchen Manufacturer & Installer Business for Sale Auckland

This is a turn key opportunity to a niche kitchen manufacturer producing outstanding results in a high growth sector

The business provides a highly customized kitchen design and manufacturing service to an affluent market primed for significant growth over the next 20 years. The opportunities to expand the business are immense with new housing developments being planned. 95% of the business revenue is generated from referrals conveying significant goodwill in the Companies brand and reputation for outstanding service and product quality.

The husband and wife team work together combining a consultancy and design service through to manufacturing and installation.. Cutting of materials is contracted out to an outside contractor and then delivered to the factory for final assembly before installation.

The business also manufactures vanities, wardrobes and any other living space that a customer wishes to refresh or renew. The immediate region have 2 or 3 other kitchen manufacturers operating with all of them experiencing high demand fro their services.

Business Resources

The business operates from a spacious workshop located in an idyllic coastal resort. The centre combines two units and has a factory floor, office and showroom where customers can articulate and design their dream kitchen. Initial concepts are created via a computer program and presented to customers for final sign off.

Kitchens are manufactured from the highest quality materials being melteca, vaneers, lacquers and solid timber. Factory equipment includes modern drop saws, buzzers, extractors and edgebanders.
