

Industry Training Business for Sale South Island Wide

PTE; South Island; Wide Customer Base

The Business

Owned in the South Island, this business currently provides courses across a range of industries, utilising online or site-specific training. Income is primarily generated from Government-funded programmes or commercial entities investing in their staff, and this PTE is fully EER-compliant. The IP includes all the training programmes, trainer contracts, student database and established commercial client relationships. The profits showing below are based on calendar years, **and the 2025 year is progressing equally as well as in the recent past.**

Sale of Shares

The simplest and most effective way to change ownership of a PTE business is by way of a sale of the shares in the business, and this will be the preferred option with this transaction.

Business Resources

The Buyer

Whilst there is some geographical concentration of the contracted tutors, the business is run from a home office, and there is no specific location required of a new owner. The buyer will know (or learn) how to operate a PTE in New Zealand and continue to build on the very sound platform that has been established. The vendor had a corporate background prior to purchasing this business some years ago and simply gained sector/industry-specific training by working in and on this business.

Act quickly as this business has only been available once before, in its 25-year history.

Sale Price \$495,000
