

# Bouncy Castle Business for Sale Waikato Region

## Well established bouncy castle Rental Business, which is home-based operating an online booking system.

**On offer is a bouncy castle renting business, which is home-based operating an online booking system.**

We took over this business in 2021 and have spent a lot of time and energy building up our reputation and current success. We are a favourite for children's birthdays, private parties, school galas, holiday programmes and commercial events in the Waikato, Bay of Plenty and Auckland regions with a long list of loyal customers.

The majority of our bookings are in Hamilton and the surrounding rural areas. Our point of difference is that we don't just have bouncy castles, we have a range of different amusements which sets us apart, such as soft play packages, sumo suits, bungee run and dunk tanks.

Please check out our website <http://www.activegamesandamusements.co.nz> to view our range.

The majority of the items on this website are included in this sale, plus gladiator and a giant 19m long, 3 laned obstacle course and slide which comes in 2 pieces. Our reason for selling is our kids are about to embark on weekend sports so it is time for us to embrace this new chapter. This has been a lucrative family-run business and is a fantastic opportunity for a new owner to run either as a stand-alone business or perhaps as an add-on to a similar business.

There is plenty of potential for growth by engaging in more marketing. Our annual revenue for the 2024 financial year was approximately \$79,000. As the business is home-based it benefits from no lease costs. This business is relatively straightforward to operate, and we are happy to provide full training and a handover period (to be negotiated).
