Motorcycling Down Under/Long Standing Brand

This Motorcycle business represents an opportunity to enter an industry of excitement and adventure, and acquire this well established and proven performer in an industry that is well placed for growth.

This business is a credit to the current owner, a passionate rider who has developed such a loyal local clientele over the many years of successful trading, but also has strong national reach with solid repeat customers.

The business is a complete package, with revenue not just from bike sales but also the options of servicing and upgrades, tyres and parts, and all bike gear both online and instore, combine the good sales numbers with very low overheads and central location, this offers a very attractive opportunity.

This business is a fantastic opportunity for a passionate bike enthusiast or retailer to take over as an owner operator under the current model, but also has very real potential for increased revenue streams by utilising systems that are in place and ready to unlock and develop, this extra area of the business that was halted during covid is now ready and ripe to reinstate, therefore offering very real potential for growth.

If you are looking for an affordable opportunity and entry into this exciting industry with the ability for growth, then this business is just for you...
