Fantastic, Home Based Online Business

This is an established business that has gained strong customer loyalty and developed its own market niche. It has little direct competition.

The business currently provides a good second income but is capable of further expansion & development. The current owners are only selling due to ill health. They have identified growth opportunities that would suit someone who wishes to take it to the next level.

Alternatively it would suit a retired or semi-retired couple who would like to keep the workload small.

Online Business Advantages:

- * Owners are able to work the hours that suit them
- * No direct customer contact
- * Minimal advertising
- * Easily operated from anywhere
- * Broad range of customers throughout New Zealand and internationally

Home Based Business Advantages:

- * No staff
- * No fixed overheads
- * Able to claim home based business expenses
- * Simple to operate
- * Established procedures

This business has very effective yet simple systems and procedures that can be easily learned. This includes a digital photography setup that enables the business to professionally display its products online.

The owners are prepared to provide support and assistance to a new owner to ensure they are successful.

Please note: the location shows as Auckland because this business could be operated from anywhere in New Zealand.
