

Naturopathic Natural Health Business for Sale Cambridge

Online Brand Only for Sale: Naturopathic Natural Health - Established Brand (2016) + Website + Instagram + Facebook + Branded Assets

The Good Health Room is a naturopathic and medical herbalist business that opened in 2016. It offers personalised natural health care through consultations, functional testing, dietary and supplementary recommendations, and custom-made herbal formulas.

Located in the thriving and growing town of Cambridge, the business serves an affluent, health-conscious community seeking holistic and complementary alternatives to conventional medicine.

With a solid foundation in the local community, the brand has the opportunity to grow its online presence or reintroduce a physical space to serve clients in person once again.

The brand was created as *The Good Health Room* to allow room for future growth—whether by incorporating additional healing modalities or evolving into a fully integrative clinic. The word "Room" symbolises an open door to expansion and collaboration.

Business Resources

NOTE: This is a brand-only business sale, operating part-time and fully online since mid-2024, with no in-person services currently offered.

Incorporated Company since 2016
