Ultra-Scan is NZs leading cattle ultrasound pregnancy scanning and calf disbudding service provider. You will provide a recession proof, covid proof, drought proof, dairy payout proof essential service to farmers.

An existing client base with current income approx \$100,000 with potential for growth!

An exclusive territory, mobile rural lifestyle with two peak work loads offering plenty of down time.

Franchising with us begins with a strong foundation built on a successful concept. We conduct thorough market research, develop robust systems, and welcome our franchisees as valued partners. This approach provides our franchisees with a proven business model to establish their own ventures confidently, eliminating the uncertainties of starting a new business. We offer comprehensive support and training.
