JL BUSINESS SALES

Long-standing, Profitable and Stable Engineering

Step into ownership of one of Auckland's most trusted precision engineering firms, operating successfully for over 30 years. This long-standing business has built its reputation on quality, reliability, and responsiveness, servicing loyal, high-value clients across essential industries with consistent, repeat work and no reliance on outbound sales.

With a highly-skilled team in place and partial day-to-day management handled by staff, this is a genuine turnkey operation offering stability and continuity from day one. Strong margins, a proven track record of profitability, and robust internal systems mean new ownership can focus on strategic growth or maintain the current model and enjoy solid returns.

The business has remained consistent with similar performances over a 6 year period and recent growth making it a healthy and stable investment for an investor.

The business operates from well-configured premises in a strategic industrial location, supported by a fair, secure lease with terms through to 2034.

Opportunities like this, combining legacy, leadership, and lifestyle, rarely come to market.
