Portable Cabin Rental Business for Sale Auckland to Waikato region.

An easy and affordable way for someone to enter the cabin rental/sales business. focusing on high quality, timber framed, metal cladding and double glazed cabins.

There is a huge growing demand for cabins to be used as additional accommodation, an office etc. These Cabins are easily transported and set up in any location.

The effort to return is excellent and the business is easily managed with only an hour of work a week, and can be based anywhere in New Zealand.

I started the business around a year and a half ago, which I was planning on using to supplement my income. I have designed this business to generate long term recurring income, expected to top \$20'000 in the next 12 months.

Plans have changed, and I am selling this opportunity for someone to establish their own Cabin Rental / Sales Business. I am selling everything needed to continue operating this Business.
