### "Omni Products" - urgent sale! Import & Wholesale Business & Assets

Any reasonable offers will be duly considered.

Omni Products is an import and wholesale business, focusing primarily on the import and distribution of garden and trade products.

With a proud legacy dating back to 1988, Omni Products commenced as a glove supplier to become a leading wholesaler of premium gardening, outdoor living, and trade products, serving both retail and professional markets across the country.

Unfortunately, the vendor company is now in liquidation, the liquidator continues to trade the business, in order to preserve the goodwill and value of the business while a new owner is found for the business and assets.

The Omni Products has its own branded "Lil Sprouts" range of products, plus a variety of other branded and non-branded gardening type products as distributor for other brands, across major and well-known retail stores. The range of products included in the current stock inventory are: hats, footwear, gloves, garden tools (spades, shovels, axes etc), water features and garden sculptures, and more.

The business operates from leased premises in Wairau Valley, Auckland. A new owner can either negotiate a new lease for the premises, or relocate the business.

The business has an excellent website at [www.omniproducts.co.nz](http://www.omniproducts.co.nz), where further details of the business and products can be found.

The business is currently for sale as a going concern, at a price to be negotiated based on:

- Significant stock holdings (est at \$880k + GST subject to change as the business is still trading)
- Tangible assets (est at \$20k + GST @ book value)
