National Group Building Franchise - ~\$2m EBITDA 2026 - Owner Retiring

This is your opportunity to purchase a very successful Group Building franchise.

Currently operating with 10 profitable franchise territories in NZ. As part of their growth strategy, the franchisors are in negotiations with potential Master Franchisees in Queensland, Australia.

The business has registered trademarks, franchise agreements and comprehensive systems in place for NZ and Australia.

One of the owners is looking to retire.

The business responded well to the COVID-19 economy, and with improving market conditions, the owners expect the business to continue to see steady growth.

This opportunity would suit companies currently involved in construction, businesses looking to add a building component, investors or as the current owners were builders looking to grow a national operation.

The business operates via a bespoke management program, which provides the owners with complete access to all operational aspects and the ability to monitor these daily throughout the network.

The hard work has been done to build all the systems and create a solid network producing significant returns for the franchisor.

The growth in the business is the recruitment of new franchisees for the balance of the NZ franchise territories, as well as the expansion into the Australian market.
