Fit Scan Pro - Body Scanning Business With Huge Upside in Fitness & Corporate Wellness

Fit Scan Pro is a mobile body composition scanning business, the perfect side hustle minimal time invested. It's fully set up with a professional website, equipment, branding, and booking system—ready to go from day one.

Revenue streams include individual bookings, gym partnerships, and lucrative corporate wellness challenges. It's a powerful value-add for gyms and PTs, helping drive member retention, upsell PT, or create fitness challenges with measurable results.

Low overheads, flexible hours, and scalable demand make this an ideal opportunity for fitness professionals or entrepreneurs looking for a ready-made, high-margin side hustle or full-time gig. We're selling due to lack of time—not lack of potential.

Website: www.fitscanpro.co.nz

Business Resources

Includes an InBody body composition scanner valued at \$15,000, fully integrated booking website, and Xero accounting setup. Best suited for an owner-operator—no staff required. No physical premises needed; the business is fully mobile. Ongoing costs are minimal, with only website and Xero subscriptions. Full handover and support provided.
