### On Line Water Filtration Business - NZwide

Recurring Revenue

Profit \$40,000

Rare to find a business in this industry. This established business sells a range of water filter systems to provide customers with good, clean water; it's that simple!

A network of installers across the country completes the installations of the systems.

The current owner works part-time.

This business offers tailored water filtration solutions to both residential and rural customers.

Key Features:

- Great Products
- Online sales with streamlined systems
- Operate from anywhere
- Recurring income from consumables
- Nationwide customer base and contractor network
- Low overheads
- Ideal for owner operators or as an add-on to a plumbing/home service business

Positioned for growth with an increasing demand for clean water.

The business would suit various buyers:

- Plumbing Business
