Popular Tour Operator

1. Providing package tours for almost 20 years
2. Strong connections with international tour booking agencies
3. Sale comes with significant forward bookings
4. Includes two high spec vans
5. A simple business to run and operate

This popular package tour operator has been showcasing the Hawke's Bay region to mainly overseas visitors since 2006.

The business has developed strong relationships with the largest international booking agencies that market inbound shore excursions in NZ. This means a large percentage of the businesses sale revenue is forward bookings. Great for planning and logistics.

A wide range of tour packages are provided including sightseeing, Art Deco tours, wine, beer and gin tours and shore excursions for cruise ship passengers and general tourists.

The business has a pool of experienced contract drivers so optional if the new owner(s) wishes to drive themselves. Multiple drivers are required during the busy season.

This is also a fantastic lifestyle business due to the high seasonal demand for tour packages between October through to April. Therefore leaving the winter months for the owners to travel or relax or develop new tours.
