Make your Profit over Summer - Luxury Mobile Event Management Business

\$400k SALE PRICE, 2025 EBPIDT \$145,000

A strong pipeline of summer events and an extensive stock of luxury glamping assets sufficient to accommodate 400 people makes this unique event management business a highly attractive proposition.

The business has successfully maintained contracted relationships with music festivals for over ten years, ensuring the core of the business remains strong. Working only over the summer months delivers strong revenue and profitability with confirmed festival bookings plus all systems and processes already in place. The backbone of the business is glamping accommodation provided for festivals and events which is booked well in advance. Corporate events, weddings and summer parties hosted by high net worth individuals on their own properties are a popular feature in the summer calendar of this business.

Warehouse space for all the assets is also available on a negotiated lease basis and all customer lists, contract labour processes and all brand IP included in the sale.
