### Relocatable E-Commerce Business

Our Vendor is selling their e-commerce business that was originally established in 2017.

The business has been a great success and operates 100% on-line. Products are sourced from China, warehoused in regional NZ and distributed throughout Australasia. The business is easily relocatable.

The business has the added benefit of a special ingredient that presents a huge opportunity for someone with the vision to develop it. Professional estimates indicate the I.P. could be scaled up to generate seven figure revenue.
