The true business unicorn!

- * Established business 14+ years in the market
- * Invested in and up to date systems
- * Owner works approx. 30hours per week

Thanks to the low and consistent business expenses and their great sales growth the cash surplus to the working owner is in excess of \$120,000 for the first 5months of this financial year.

This is one slick business model. No assets to upkeep. No lease concerns. No staff to manage. No holding stock risks. Beautifully cashflow positive and you can run it from anywhere in the country, or further afield if a tropical beach is more your feel.

The Vendor has invested heavily in establishing this brand, its online platform and their national network of service providers. The business benefits from both a diverse range of suppliers and customer types.

What is the product you ask? For now, we can say it's a household consumable that isn't going out of fashion and has been part of our daily lives for over a century.

Call us today as this is one unique business that will tick a lot of boxes.
