H & S Training & Consultancy Business

Owner retiring - Business Relocatable

Profit \$120,000 (10-20 hr/wk)

Do you have a background in H&S or experience as a teacher/trainer or coach?

This is the perfect opportunity for a H&S professional to secure a business with everything in place, with the ability to generate a full-time income working part-time!

H&S training is in demand, with a shortage of skilled professionals to deliver quality education.

The business has built a suite of courses/training programs that they have been delivering for over 5 years to a broad client base.

The courses can be tailored to provide clients with specific outcomes required. This approach, material, and delivery have resulted in lots of demand and a great reputation.

- Quality IP - 9range of customised courses with support material
- Strong client relationships NZ-wide - good mix of small, medium and corporate clients
- Contracts with two large organisations to deliver H&S training to members
- Ample growth opportunities
- Low overheads - home based
- Owner works ~10-20 hours a week
- Business is Relocatable - currently Christchurch-based

The owner is retiring, leaving a great foundation for a fresh, energetic, focused new owner to put their stamp on the business and grow it.

The owner is committed to the successful transfer of the brand and client relationships, as well as ongoing mentoring and support. Everything is in place for a great start. Don't hesitate!
