Hawkes Bay Fibreglass Repair and Manufacturing

This long-standing business in Hastings is a solid going concern with good cashflow. Involved in the essential repair of fibreglass products using modern techniques. Boats, caravans, campervans, jet-skis and more.

This is also a solid manufacturing business that is primed for growth. They have moulds for many other products that they manufacture, either for their own salesendeavors or for others. Some of the products they have been involved with will surprise you and the brands are iconic. Check it out!

Staffed by two working owners, one of which is keen to stay on as a staff member. He loves his job and is not ready to retire. He is keen to show a new owner or additional staffon how to do the job, or you can simply slot into the administration role being vacated.

The vendor's own the building, so a new lease is required. The space is suitable for the work with two access and a large yard space.

- * Good spaces
- * Services in demand
- * Manufacturing and repair
- * Growth potential

I am excited for the new owners of this business and can discuss ideas on how to really supercharge it. It would be suitable for a strong administrator, or someone used to working with materials such as an engineer, panel beater or painter. Enquire now and find out more.
