- ✓ Recession-Resistant

**Fibrenew, the experts in leather, plastic, and vinyl repair, have exceptional franchise business opportunities available across New Zealand!**

## What We Do

Fibrenew is an efficient mobile-based service business that restores, re-dyes and renews damaged or worn leather, plastic and vinyl in homes, offices, boats, vehicles, airplanes, medical clinics and more. Anywhere there are items like this in need of restoration, we are called upon to help our clients. Stop and think, or look around now - where do you see leather, plastic or vinyl? It's everywhere!

## Why We Do It

Fibrenew's services save customers time and money by offering an alternative to replacement. Our services are more economical than the cost of replacement and can often times be completed faster than the time it takes for replacement materials to be ordered or delivered. As an added benefit, this saves hundreds of damaged items from ending up in landfills. It's win-win!

## Who We Are

Since 1987, we have built and refined a robust franchise business system. This includes the research and development of a proprietary product line, specialised techniques as well as rock-solid support, operations and marketing systems. The strength of our business model, the quality of our products and services and our enthusiasm for what we do all contribute to the success of **more than 300+**

**Fibrenew franchises around the world today**
