Type: **Manufacturing**

Agri-Product Manufacturing - Investment Opportunity

This is a rare opportunity to acquire two well-established, complementary businesses operating seamlessly under one roof, manufacturing agricultural and horticultural related products. With diversified income streams across the dairy and horticultural sectors in chemical and fertiliser products, the group has built a strong reputation for quality, reliability, and performance both in New Zealand and offshore markets.

- Sales of approx. \$3.9M with a 5-year average EBITDA of \$850K
- Longstanding brands with national distribution and export channels into the UK, EU, and Asia.
- Robust compliance credentials and modern, well-maintained production facilities.
- Complementary product ranges with shared systems, staff, and overheads, delivering operational efficiency.
- Recently completed brand redevelopment and structured marketing program positioning the business for future growth.

The Vendor is supported by a skilled and loyal team of nine, many with long tenure and deep product knowledge, ensuring smooth continuity for a new owner. Systems and processes are well established, and the shared East Tamaki facility provides scale and efficiency across both operations.

Recent investment in marketing and brand redevelopment has positioned them for the next phase of growth which will benefit the new owner. This, combined with proven international export relationships and a strong reputation in the rural sector, provides a powerful platform for continued expansion.

With longstanding brands, complementary product lines, and operational synergies, this is a turnkey investment offering scale, and opportunities for expansion. Ideal for investors seeking a secure, high-performing manufacturing with immediate cashflow and growth potential.

Asking Price: \$2,846,000 Inc. plant & stock
