

# Farming Health and Safety Online Business for Sale National

## Work for yourself and make a real impact on NZ farm safety

Online Health & Safety for Sale - [SmarthS.co.nz](https://smarthS.co.nz)

### Practical training content to prevent serious farm machinery accidents

**SmarthS.co.nz** is a purpose-built New Zealand health & safety web based business opportunity focused on two critical outcomes: **helping workers avoid accidents around farm and industrial machinery and helping farm owners and managers being blamed when they do.**

The site delivers **clear, practical, no-nonsense training content** designed for real operators – not paperwork compliance. It presents vital safety information in a format that staff actually read, understand, and remember. No special licence is required to operate much of this machinery – yet mistakes can be fatal. SmarthS exists to close that gap.

**Accidents can and do happen.** When they do, questions are inevitably directed at farm owners and managers about **what reasonable steps were taken to prevent them.** Being unable to demonstrate that any training, guidance, or proactive education was provided can quickly become problematic. SmarthS gives businesses a practical way for farm owners and managers to show they took prevention seriously before an incident occurred.

### Opportunity:

SmarthS.co.nz is ready for a new owner to grow the site into a business, potential is huge from the sale of courses to licencing content, partnering with rural organisations, or expanding into additional high-risk sectors. The hard work on concept, structure, and content has been done and the content is exceptional.

### Ideal for:

Health & safety professionals, rural service businesses, training providers, or operators or passionate about reducing serious harm on farms.

### Reason for sale:

The developer has moved on to new projects, and this platform deserves an owner focused on growth and impact.

### Business Resources
