

# Online Farming Health and Safety Business for Sale National

## Make a Real Impact on NZ Farm Safety - Turn this superb content into a Profitable Digital Business

Online Health & Safety Website for Sale - [SmartHS.co.nz](http://SmartHS.co.nz)

### Practical training content to prevent serious farm machinery accidents

**SmartHS.co.nz** is a purpose-built New Zealand health & safety website focused on one critical outcome: **helping workers avoid accidents around farm and industrial machinery.**

The site delivers **clear, practical, no-nonsense training content** designed for real operators - not paperwork compliance. It presents vital safety information in a format that staff actually read, understand, and remember. No special licence is required to operate much of this machinery - yet mistakes can be fatal. SmartHS exists to close that gap.

**Accidents can and do happen.** When they do, questions are inevitably directed at farm owners and managers about **what reasonable steps were taken to prevent them.** Being unable to demonstrate that any training, guidance, or proactive education was provided can quickly become problematic. SmartHS gives businesses a practical way to show they took prevention seriously before an incident occurred.

### Opportunity:

SmartHS.co.nz is ready for a new owner to grow the site into a business, potential is huge from the sale of courses to licencing content, partnering with rural organisations, or expanding into additional high-risk sectors. The hard work on concept, structure, and content has been done.

### Ideal for:

Health & safety professionals, rural service businesses, training providers, or operators passionate about reducing serious harm on farms.

### Reason for sale:

The developer has moved on to new projects, and this platform deserves an owner focused on growth and impact.

### Business Resources
