

Log Haulage Business for Sale Whangarei

Log Transport Business for sale in Whangarei due to owner retiring without successor.

We transport logs with four (4) operational and one (1) spare truck from forests in Northland to the local Mills and Northport at Marsden Point just south of Whangarei. This is one of the strongest harvesting areas in New Zealand with Northport being the closest deep sea Port to the rest of the world.

For overseas interest: New Zealand is one of the safest countries in the world and, if Transport is your expertise and passion, this is your opportunity to get access and Residency to the country.

Business Resources

We work within a group of around 70 trucks with a central Dispatch and employ 4 staff at present. The owner shares the spare truck with all other staff in busy times and when trucks are off the road for maintenance, break downs and COF's.

We outsource all our maintenance to local professional workshops as our fleet is too small to justify our own workshop.
