Marine Eco Tourism Resort - STH Pacific Islands

Our clients have established an exceptional wind sport and marine eco-tourism resort in the South Pacific and are now offering it for sale.

Established for over 10 years, this resort has all the permits in place for continued growth and expansion.

New development permits are now rare as hen's teeth, and marine mammal viewing permits are no longer available.

These assets are increasing in value and can only be obtained by purchasing an existing operation. Yields on capital values are very attractive.

This business offers unparalleled lifestyle with consistent bookings, regular cashflow, and healthy profits.

A seasonal business that offers eight months of adventure and island living, with four months break to explore the rest of the world.

Price: \$2,100,000
