"Profitable Water-Blasting Business for Sale - Turnkey Operation with Growth Potential!"

I started this water-blasting business about three years ago, based in Ruakaka and servicing the greater Whangarei area. It's a well-established, reputable operation with a loyal customer base and steady repeat work. I currently run it on my own, working around 25 hours per week and get a good return for part-time hours, with plenty of scope to expand simply by increasing availability or adding another operator. The sale includes a purpose-built setup featuring a 500L holding tank and a 3500-4000 PSI Honda 390 (13hp) water blaster. The ute is fully equipped with a large toolbox, three surface cleaners, four lances, multiple nozzle options, and assorted ladders — everything you need to step straight in and start earning. The ute itself is included in the sale and has only 40,000 km on the clock. I'm reluctantly selling due to a shoulder injury and family relocation to Mount Maunganui, so it's a great opportunity for someone to take over a solid, profitable business with minimal overheads and strong growth potential.

Business Resources

Established water-blasting business based in Ruakaka, servicing the greater Whangarei area. With a loyal customer base and steady repeat business, this profitable operation is run part-time (25 hours/week) but offers significant growth potential. The sale includes a fully-equipped ute with a 500L tank, Honda 390 water blaster, surface cleaners, nozzles, and ladders—everything needed to start earning immediately. Ideal for someone looking to step into a well-organized, low-overhead business. Selling due to injury and family relocation.
