Furniture & Event Hire Business - Side-Hustle (Part-time)

Looking for a side hustle that can be turned into a full-time business??

Are you creative and have a flair for design and styling and have ambitions to put those skills to use? Here is the perfect opportunity for you to become a wedding/party planner!! The business combines event/wedding planning and is complimented with the hire of event/party equipment to clients. There is a large range of quality hire stock in place.

Range of hire stock includes bespoke and rustic furniture, soft furnishings, place settings, glassware, decor, backdrops, signage, mirrors and much more. Two branded vehicles are included with the business

A lot of work and money has been invested to build the business, it is now at a crossroad for a new owner to either continue this as a side hustle part time or take the next level and grow it in to a full time business.

Guess what? You decide!

The business has a lot of those advantages that business owners look for:

- Part-time
- Work from home
- No rent
- No staff

Currently, the business operates from a lifestyle block North of Christchurch and services the Canterbury area. The location of the business is not critical, which means the business/hire stock is relocatable to an area of your choice.

Forward bookings are in place and growing. The current owner is happy to assist a new owner to ensure a smooth handover and transition.
