

Drug Detection Franchise for Sale Taranaki

Profitable franchise with a unique territory, strong margins, and exclusive contracts / SLA's across regional and national clients.

A proven market leader, delivering comprehensive workplace drug testing solutions supported by expert policy guidance, staff education, and occupational health services. Taranaki serves a diverse client base, including transport, construction, oil and gas, engineering, manufacturing, and government agencies. The region offers significant growth opportunities, strengthened by TDDA's national marketing and referral networks. Occupational health services include PEMS, AHMS, vaccinations, respiratory fit testing, and more. The investment provides franchisee rights, onsite operational training, IT systems training, business development support, and ongoing support from the national head office.

Business Resources

Highly trained operational staff deliver exceptional safety and service. Assets include a modern IANZ accredited clinic and two mobile testing vans. The exclusive Taranaki territory is backed by a decade long reputation with loyal client base, service level agreements with local and national clients, along with access to bespoke IT systems, and a franchise mentoring program, further strengthen the operation.
