JL BUSINESS SALES

Established Fencing Manufacturer

This established Auckland based fencing business designs, manufactures, and installs quality residential and light commercial fencing. Generating revenue of approximately \$577,000 with EBITDA exceeding \$100,000, the business has historically delivered owner earnings of circa \$150,000. It operates from a central location with five full time staff, including a factory worker and three skilled installers, while the owner focuses on sales and quoting. The business is offered for sale due to retirement.

Revenue is well diversified across direct manufacture and installation, wholesale supply to building merchants, and B2B sales to contractors. As a result, the business is not reliant on any single customer or channel, with goodwill readily transferable. The operation is not fully dependent on the owner and requires no specific qualifications to run, supporting an easy transition.

This opportunity will suit a builder seeking a buy a job or a trade buyer looking to acquire established products, systems, and customers. With a proven brand and multiple income streams, this represents a compelling acquisition in the manufacturing and construction services sector.
