### Successful Transport Business - Motivated Owner

Well-established model with experienced staff and modern systems.

A rare opportunity to acquire a long-established regional transport business operating at the core of its community. This is a contract-led operation delivering healthcare, assisted passenger, and on-demand essential transport services across a growing lower North Island region.

The business trades 24/7 and is built around pre-booked and contracted work, providing predictable revenue and reduced exposure to casual demand. Modern dispatch systems, a mixed fleet including mobility-capable vehicles, and certified drivers underpin efficient, reliable operations.

Why this business stands out:

- \* Long-term government and healthcare contracts driving consistent income
- \* High proportion of repeat, pre-booked work
- \* Mixed fleet model with TMV capability
- \* Established systems and experienced workforce
- \* Minimal marketing reliance - demand driven by contracts and reputation

Well suited to an owner-operator, a couple, transport group, or investor seeking a stable, essential-services business with strong barriers to entry. Land and buildings also available by negotiation.
