

# Hardware and Home Improvement Business for Sale Pt Chevalier Auckland

## A long and well-established hardware and home improvement business in a friendly suburb

This is a well-established Hardware Store in Auckland, strategically located in the shopping area with 2 huge public carparks. The owners are retiring and have put the store up for sale. This suburb is currently undergoing major development, so there is now much more foot traffic. A new 61-apartment complex within walking distance is now fully occupied. Within walking distance, a whole new suburb is being built. It's the Carrington Road Residential Development, which will include 3,000 to 4,000 new homes for up to 8,000 residents. 2 large apartment blocks with over 100 apartments, around the corner from the store, are ready for occupation. The Store offers a wide range of tools, electrical products, garden products, home improvement DIY items, paint, and accessories. The Store also does key cutting and remote/watch battery replacements. This is an excellent opportunity to grow the business with a significant influx of up to 10,000 new customers! The recently opened large New World supermarket near the Store is expected to serve 12,000 customers per week. This will have a great flow-on effect for the Store. The sale price includes stock and all fixtures and fittings. Retail and services training will be provided. This is a great opportunity not to be missed!

### Business Resources

Retail and key cutting training provided for a week
