

Luxury pet products Business for Sale Cambridge

Luxury pet product brand with global exposure for sale

We supply high quality NZ manufactured luxury pet treats, currently active in NZ with AUS export licenses and a run way of new products to launch. We have had global media exposure and run via e-commerce and retail/wholesale partners.

We currently manufacture our own products from an at home set up but contract manufacturing is available through other parties if the new owner isn't interested in owning the full value chain.

Selling as other businesses in our group are requiring more time and attention.
