

# Engineering Business for Sale Auckland

## Highly regarded engineering business

Highly regarded engineering business with repeat, essential B2B Work. Here is an opportunity to acquire an engineering business with more than 30 years of proven performance, located in the Bay of Plenty. Built on experienced personnel, a well-equipped workshop, and a strong customer-first culture, the business has earned a reputation for quality, reliability, and consistent delivery.

Operating primarily in essential replacement and maintenance-driven B2B services, the business benefits from repeat demand and resilient earnings across economic cycles. This proven model will provide consistent cash flow for a new owner, alongside clear opportunities to scale through increased capacity, operational efficiencies and deeper customer relationships.

Key strengths of the business include:

- Fully integrated, end-to-end capability across design, fabrication, installation, commissioning, and ongoing maintenance, delivering a true turnkey solution for clients.
- Strong, contracted and repeat revenue base, providing earnings visibility and stability.
- Established market reputation built over 30+ years, providing immediate credibility and a solid platform for growth.
- The business has consistently generated EBPITDA in excess of \$1m p.a.

With proven systems, operational capability, and a resilient earnings profile, this represents an attractive acquisition opportunity for an owner-operator or strategic buyer seeking a scalable engineering platform.
